Ex: 13 Network Forensics using PCAP X-Ray.

Aim:

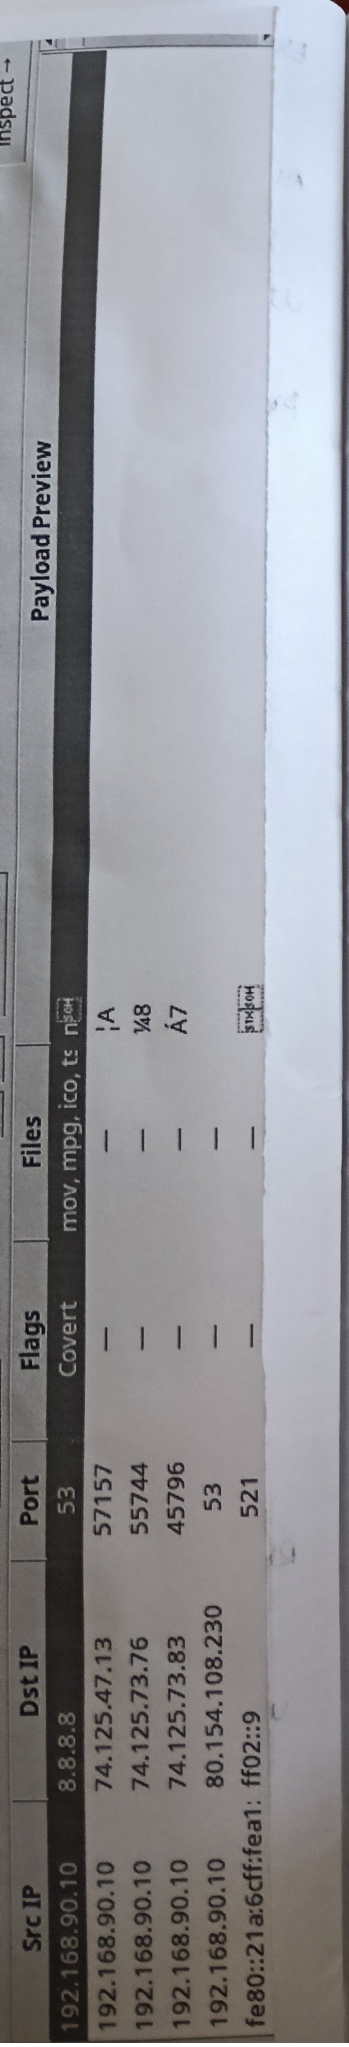

To analyze network traffic using the PCAP X-Ray tool

Procedure:

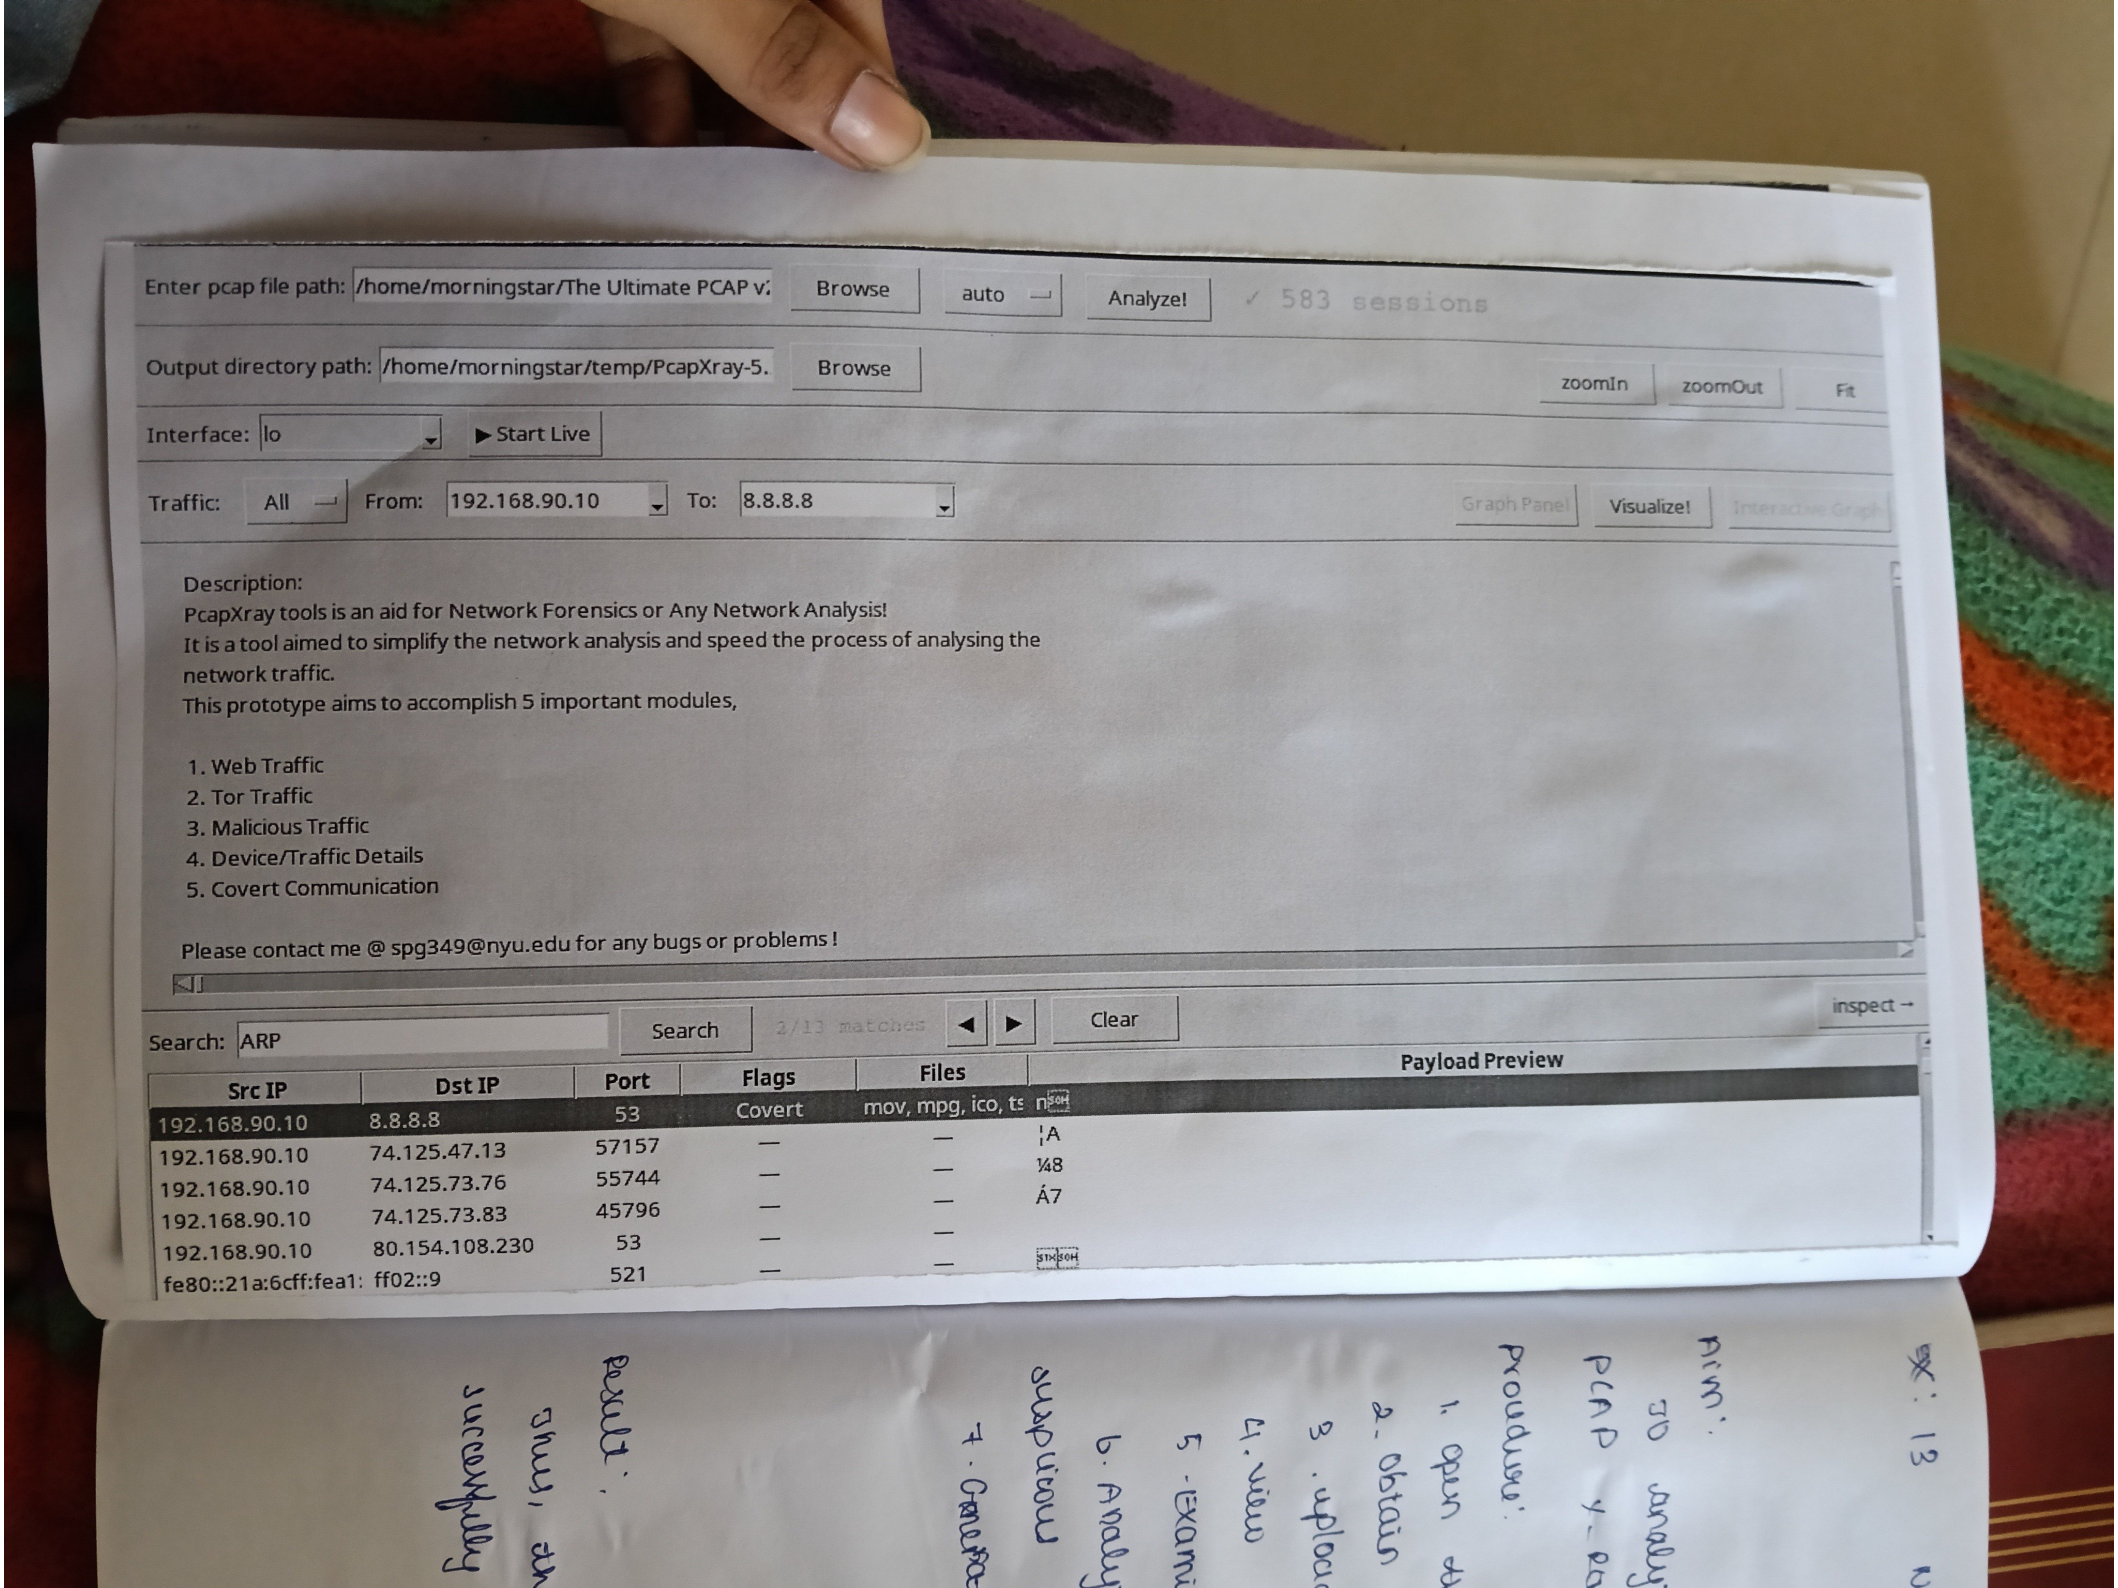

1. Open the PCAP X-Ray tool in a browser.
2. Obtain a sample PCAP file.
3. Upload the PCAP file.
4. View the analysis dashboard.
5. Examine network protocols and IP addresses.
6. Analyze communication patterns and suspicious activities
7. Generate and save the report.

Result:

Thus, the network traffic was analyzed successfully using PCAP X-Ray.
